$$ Worries

By: Damian Sclafani

Ronald enjoys working at his 9-5 job so that he can support his family.

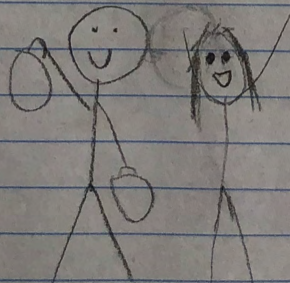

Ronald's lovely wife asked him to stop by the grocery store on his way home.

The Dealies app pings Ronald that there is a deal nearby.

After seeing the best deal Ronald could think of, he knew this store was perfect.

Upon arriving home, Ronald's wife thanks him for getting groceries.

The next morning, everyone has exactly what they need for breakfast.... and lots of milk.
